Attention: B. SMITH, Quality Manager

Ref: P&WC Delegated Quality Control Representative (DQCR) 2010 Certification Program

Dear Mr.B.Smith,

Pratt & Whitney Canada has recently introduced a Defects Per Million Parts (DPMP) tracking metric to evaluate the performance level of each Supplier's DQCR program. Supplier's with a performance below our set threshold benefit from an automatic extension of their DQCR's certification, eliminating the need to travel to P&WC for recertification training.

We are pleased to inform you that for the last 12 months the DQCR Team at UNITED PRECISION PRODUCTS CO INC has performed under the required threshold and therefore P&WC will not be requesting the attendance of following DQCR's.

- Steven Will
- Robert Smith

at a recertification session previously required for the year 2010. The DQCR program's normal 2 year recertification requirement will apply to them only in 2012.

This derogation applies only to the above mentioned DQCRs. P&WC reserves the right to request their attendance at a recertification session if a DQCR-detectable, high-impact escape is found at P&WC or at one of its customers, or if the Supplier's DQCR performance is identified by P&WC as in a negative trend.

Please congratulate the DQCR Team at UNITED PRECISION PRODUCTS CO INC for ensuring that only 100% conforming parts are delivered to P&WC.

Regards

Pierre Bedard  
Supplier Quality Assurance manager

R. Herelio Munoz-Morales  
DQCR Program Leader
